Re: Letter of Support – Washington Middle School Wind Wolves

To Whom It May Concern:

I am writing this letter to express my support for the effort by the Washington Middle School (WMS) "Wind Wolves" to research alternative and renewable energy sources. Like previous efforts by the WMS "Water Guardians" what resulted in the conservation of water and the promotion of greater water efficiency on campus, I applaud student efforts in regards to renewable energy sources, particularly wind and solar energy.

Each of us has an obligation to conserve precious resources and promote methods and technologies that can provide power to serve our needs without also harming the environment. Many local and global initiatives already demonstrate how renewable energy can achieve that goal while also having a positive impact on the lives of people near and far. I wish you well and hope someday to include the efforts of the WMS Wind Wolves within that group.

Please feel free to contact me with any questions you might have. I can be reached at 562-383-4010.

Sincerely,

Rose Espinoza
Councilmember
