Dear WMS Wind Wolves!

This letter is to serve in support of your quest to continue to seek alternative energy and increase awareness in energy conservation. I am very excited and committed to support the Wind Wolves explore the possibilities to bring renewable energy to our school.

I know the Wind Wolves have been working diligently to reach out to experts such as: Environmentalist and actor Mr. Ed Begley, Jr. As well as, Raptor specialist Ms. Maria Britton for support. The time spent talking to engineers to learn more about the structure needed for installation of the renewable energy sources of wind and solar is admirable.

I also look forward to working with the Wind Wolves to conduct an energy audit of our school to determine the amount of renewable energy the school could use.

In conclusion, the Wind Wolves have my approval and support to continue to research the possibilities to bring renewable energy to our school.

Best,

George Lopez, Ed.D., Principal.
